Bryant,
Sorry for my delay. The aircraft is in the air. Got off just at 0530. Worked on the system until 0100 and hope is works.

Apparently they're starting to hear popping sounds like it happened on the first one so they're guessing 0300

ASPECT update 16 -- 1720

Attached is the latest version of the ASPECT "living" summary report. It will be the final report for today.

Key additions include (1) infrared images, (2) additional spectra for benzoyl peroxide, (3) new/updated operational challenges, (4) current ASPECT team and aircrew members.

Please send any questions or comments on the report to John Cardarelli.

Please address all questions about ASPECT activities to Mark Thomas.

update 15 -- 1555

Refueling ops have been
completed. The crew was able to
push a large amount of data up to
the server. We are working the
data at this time. We are
returning to the Arkema site
ASAP.

The team is just about to start full
resolution processing of the most
recent data. I will send out
products as soon as possible.
